

CLAIMS

What is claimed is:

1. A combination cigarette lighter and breath freshening
5 dispenser, comprising:

a cigarette lighter device having a lighting
mechanism, a housing member, and an external side
surface; and

10

a breath freshening dispenser attached to said side
surface for holding a plurality of edible breath
fresheners.

- 15 2. The combined cigarette lighter and breath freshening
dispenser of claim 1 wherein the breath freshening
dispenser is adapted to be removably secured to the
external side surface.

- 20 3. The combined cigarette lighter and breath freshening
dispenser of claim 1 wherein the external side surface
includes a pair of mounted parallel tracks for attaching
the breath freshening dispenser to the cigarette lighter
device.

25

4. The combined cigarette lighter and breath freshening dispenser of claim 1 wherein the breath freshening dispenser includes a hinged cover for easily accessing the edible breath fresheners therein.
